

# Primjeri uspješnih projekata projekti *Fit-to-Nzeb*, *Net-UBIEP*

**Doc.dr.sc. Bojan Milovanović**

Sveučilište u Zagrebu,  
Građevinski fakultet

# Financiranje

Prijedlog projekta prijavljen na poziv H2020-EE-2016-CSA / 15 Sep 2016

Topic: **EE-14-2016-2017 - Construction skills**

- Grant Agreement Number: 754059
- Trajanje: 15.6.2017. – 15.6.2019.
  - 24 mjeseca
- Ukupni budžet:
  - 1.013.848,75 €
- Udio za Građevinski fakultet:
  - 82.980,00 €

## Ostali projekti u ovoj temi:

- Traju: BUStoB; ingREeS; MEnS; PROF-TRAC
- Počeli u 2017.: BIMplement; BIMEET; NEWCOM

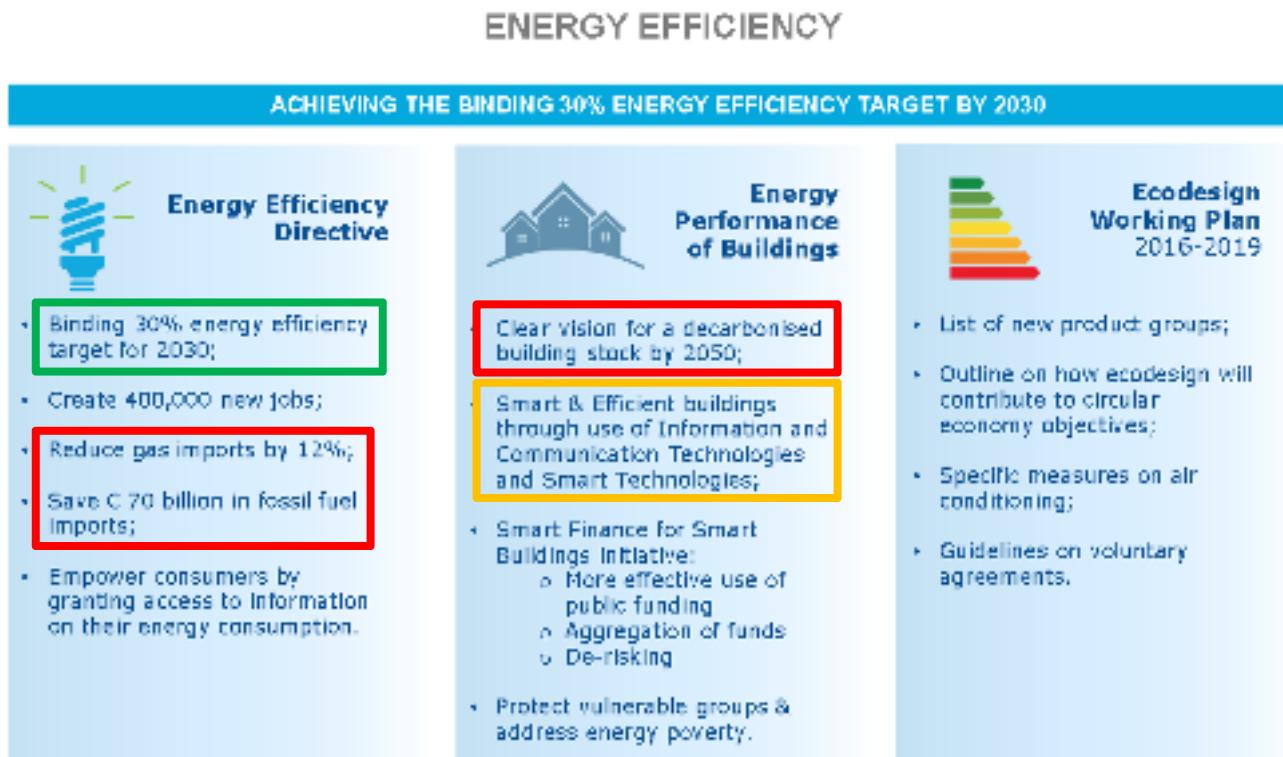

Horizon 2020: General overview.  
Video presentation by the EC

“ The most significant energy saving potential throughout Europe is in the renovation of existing buildings – so, then, why don't we try to get **better value for the money** we spend? Better value comes with qualified professionals able to implement quality renovation projects using the most efficient materials, components and technologies available on the market. It also means better understanding of the benefits of deep energy retrofit by both investors and occupants: the process in which **optimal energy savings lead to financial, health and comfort benefits** for all of us.

# Policy framework-Winter package

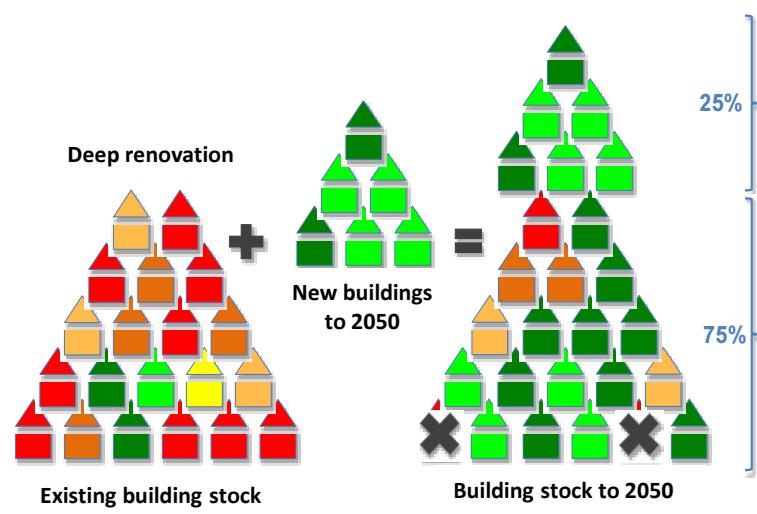

- 30 November 2016
- the European Commission published “Clean Energy For All Europeans” package, more commonly referred to as the “Winter Package”

**Fit-to-NZEB**  
Innovative training schemes  
for retrofitting to nZEB-levels

# The amendment of the EPBD II

- "Energy efficiency first" is a key element of the Energy Union
- **About 75% of buildings are energy inefficient**
- Only **0.4-1.2%** of the stock is renovated each year
- The main objective is to **accelerate the cost-effective renovation** of existing building, which is a 'win-win' option for the EU
- Renovation work and energy retrofits add almost twice as much value as the construction of new buildings

# The amendment of the EPBD II

- **Long-term strategies** for renovation of the building stock (Art. 4/EED becomes Art. 2a/EPBD)
- Mobilizing funding for carbon-free buildings: targets for 2030/2050: market signals to investors
- **ICT and smart technologies, automation and BIM, e-mobility**
- Link between public funding and EPCs; focus on microclimate and health (heating and ventilation)

# 10 principles for smart buildings in a decarbonised energy system

- All principles important separately, but most effectively considered together
- Apart from principle 1, the sequence is not in order of importance

# TKO ĆE IZVESTI OBNOVU SVIH OVIH ZGRADA?

Europski strukturni i investicijski fondovi

ZA ENERGETSKU OBNOVU ZGRADA JAVNIH USTANOVA KOJE OBAVLJAJU DJELATNOST ODGOJA I OBRAZOVANJA ZAPRIMLJEN JE 231 PROJEKT

22. veljače 2017. - Poziv za dostavu projektnih prijedloga 'Energetska obnova zgrada u javnim ustanovama koje obavljaju djelatnost odgoja i obrazovanja' službeno je zatvoren 21. veljače 2017. godine. Fond za zaštitu okoliša i energetsku učinkovitost u svojstvu Posredničkog tijela razine 2 (PT2), zaprimio je ukupno 231 projekt čija ukupna vrijednost investicija iznosi oko 800 milijuna kuna, a

traženi iznos bespovratnih sredstava oko 402 milijuna kuna.

Najveći broj zaprimljenih projekata dolazi iz Primorsko-goranske županije (29), zatim Osječko-baranjske županije (25), Grada Zagreba (17) i Vukovarsko-srijemske županije (16). Više...

Koordinator:

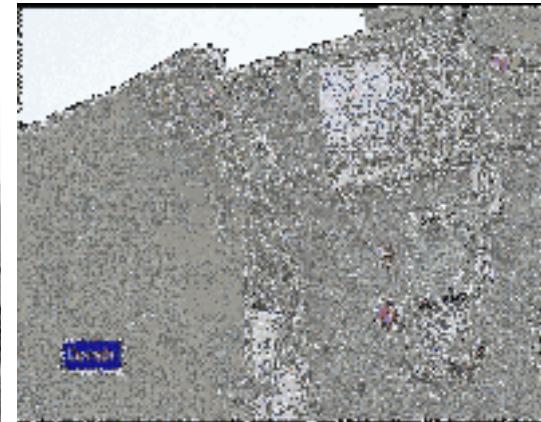

Center for Energy Efficiency EnEffect – Bulgaria

# FIT-TO-NZEB

- Cilj projekta
  - je **povećanje kompetencija i vještina građevinskih djelatnika** u području obnove postojećih zgrada na razinu G0EZ
- Kako?
  - kroz jedinstvene programe edukacije razvijene od strane konzorcija
- Zašto?
  - Potrebno je povećati broj obnova i
  - Potrebno je povećati kvalitetu dubinske obnove postojećih zgrada.

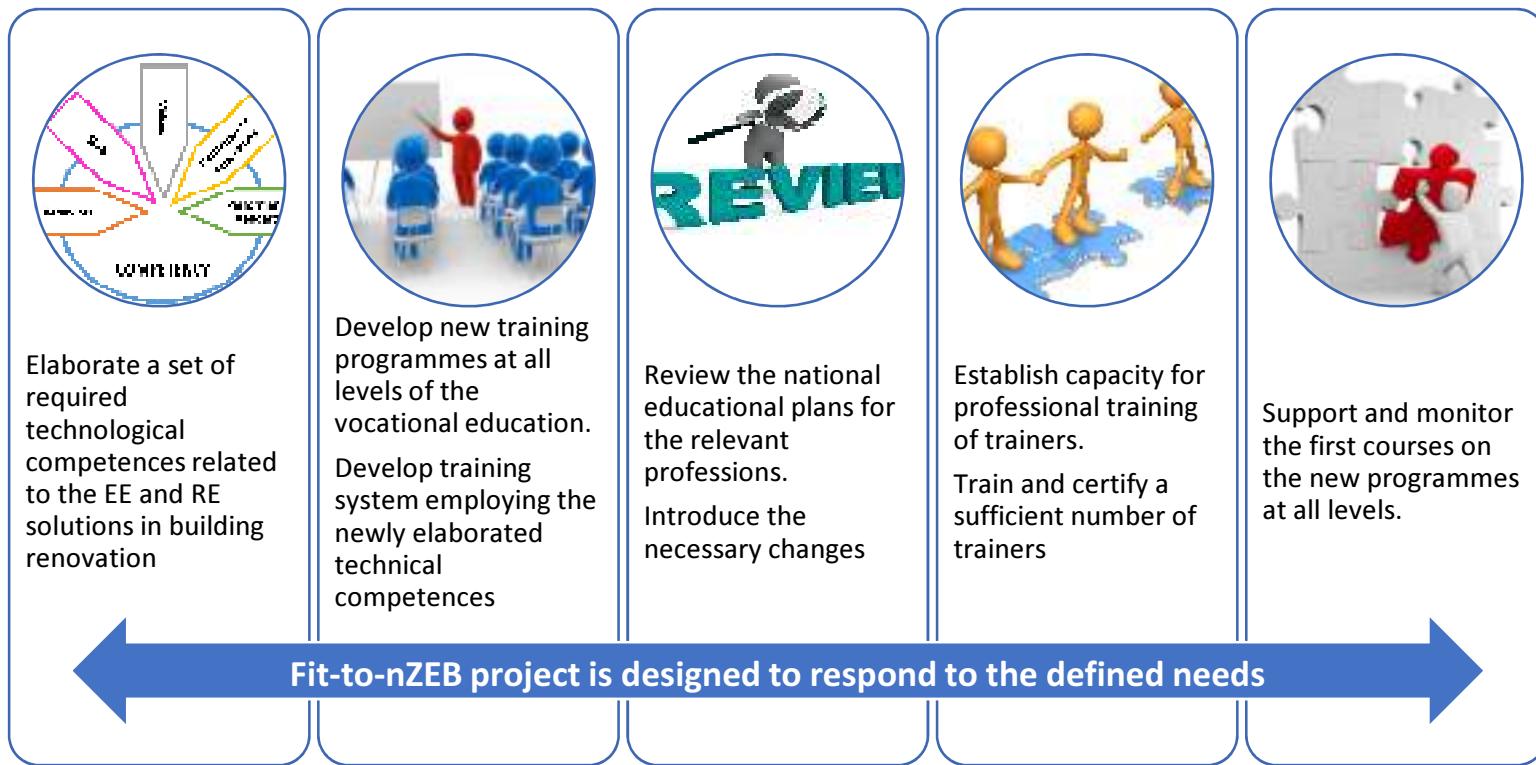

## QUALITY MATTERS!

*Customers should get  
what they paid for!*

# Fit-to-NZEB Goals

# Partneri u konzorciju

EnEffect

UNIVERSITY  
OF ARCHITECTURE,  
CIVIL ENGINEERING  
AND GEODESY

SEVEN

URBAN  
INCD  
INCERC

Sveukupno 13 partnera

# Sastav konzorcija

- 13 partnera
  - 4 Sveučilišta (fakulteta)
- Transfer iskustava i daljnje umrežavanje – nastavak BuildUP Skills incijative
  - Obrazovane institucije
  - Industrija (proizvođači i izvođači)
  - Socijalni partneri
  - ...
- Transfer znanja i iskustava iz Passive House zajednice

# WP4 - Training programmes for institutions of higher education

- Razvoj novih programa edukacije koji su u **skladu s EQF razinama 6 i 7**
- Razvoj potrebnog **nastavnog sadržaja** (learning content):
  - Definirati programsku povezanost,
  - Nastavni materijali
    - Prezentacije,
    - Praktične vježbe
    - 3D vizualizacije
    - Video materijali
    - E-learning
    - Način provođenja ispita
- Provesti **barem 3 pilot edukacije**

# Razmišljanje zašto je prijedlog uspio...

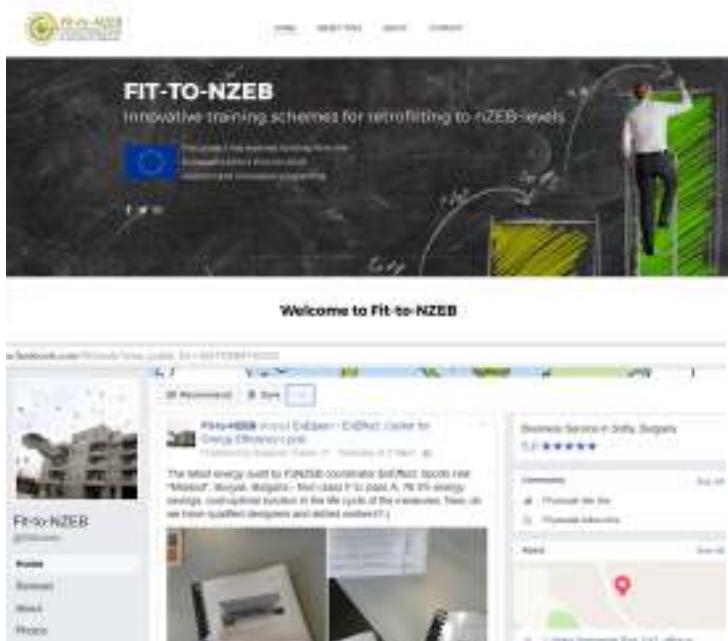

- Logika prijedloga:
  - Rješavanje neodgovornog problema vezanog uz postizanje ciljeva EK
    - Povećanje mogućnosti obrazovanja o dubinskoj obnovi postojećih zgrada na lokalnoj razini
  - Pokrivanje cjelokupnog opsega kvalifikacija
    - visokoškolski i srednjoškolski sustav
    - HKO razine ishoda učenja 2 – 7
  - Komplementaran BuildUP Skills projektima
    - Osigurava njihovu održivost nakon završetka inicijative
  - **Umrežavanje**, razmjena iskustava i znanja, geografsko širenje ideje

# Ciljevi projekta Net-UBIEP

- Net-UBIEP nastoji doprinijeti povećanju energetske učinkovitosti u zgradama promoviranjem korištenja BIM-a tijekom cjelokupnog životnog ciklusa zgrade.
  - BIM – building information management

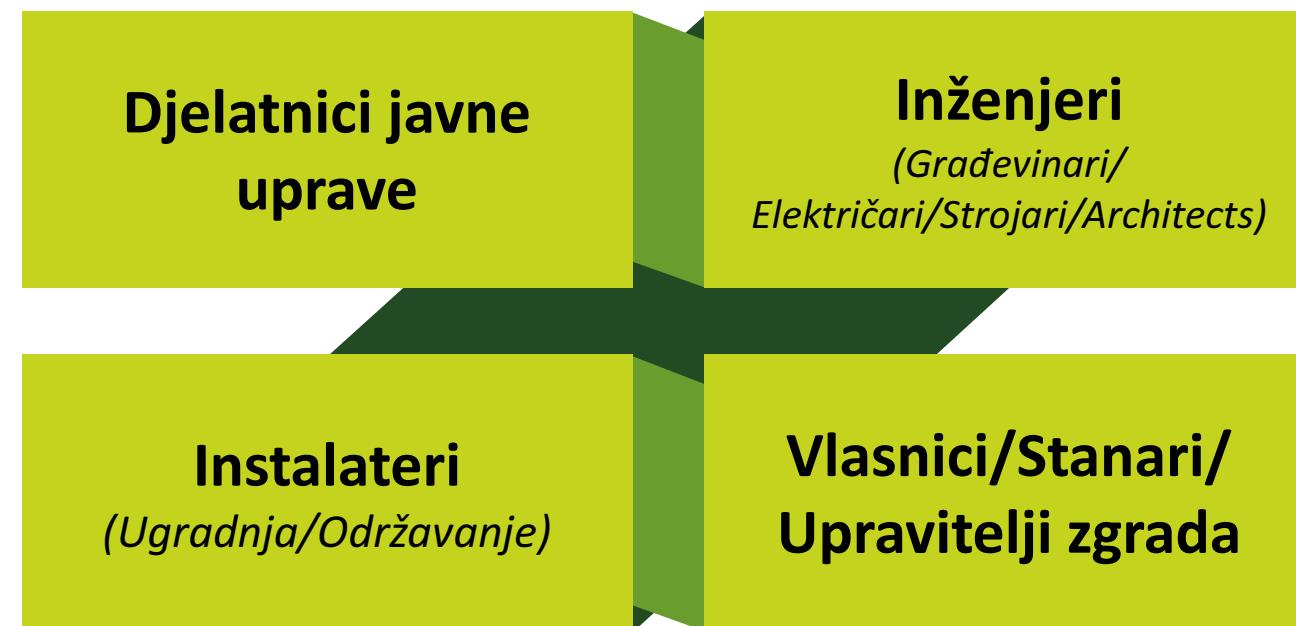

Better **management of the information** during the whole life cycle of the building is absolutely necessary in order to avoid mistakes and have trustful information at any time / when an intervention is necessary.

# Ciljane skupine

- **Tehnologija, ali i ljudi!**
- Svi sudionici u gradnji i korištenju zgrada moraju biti svjesni svoje uloge u prikupljanju, upravljanju i čuvanju potrebnih informacija vezanih uz energetsku učinkovitost

# Razmišljanje zašto je prijetlog uspio...

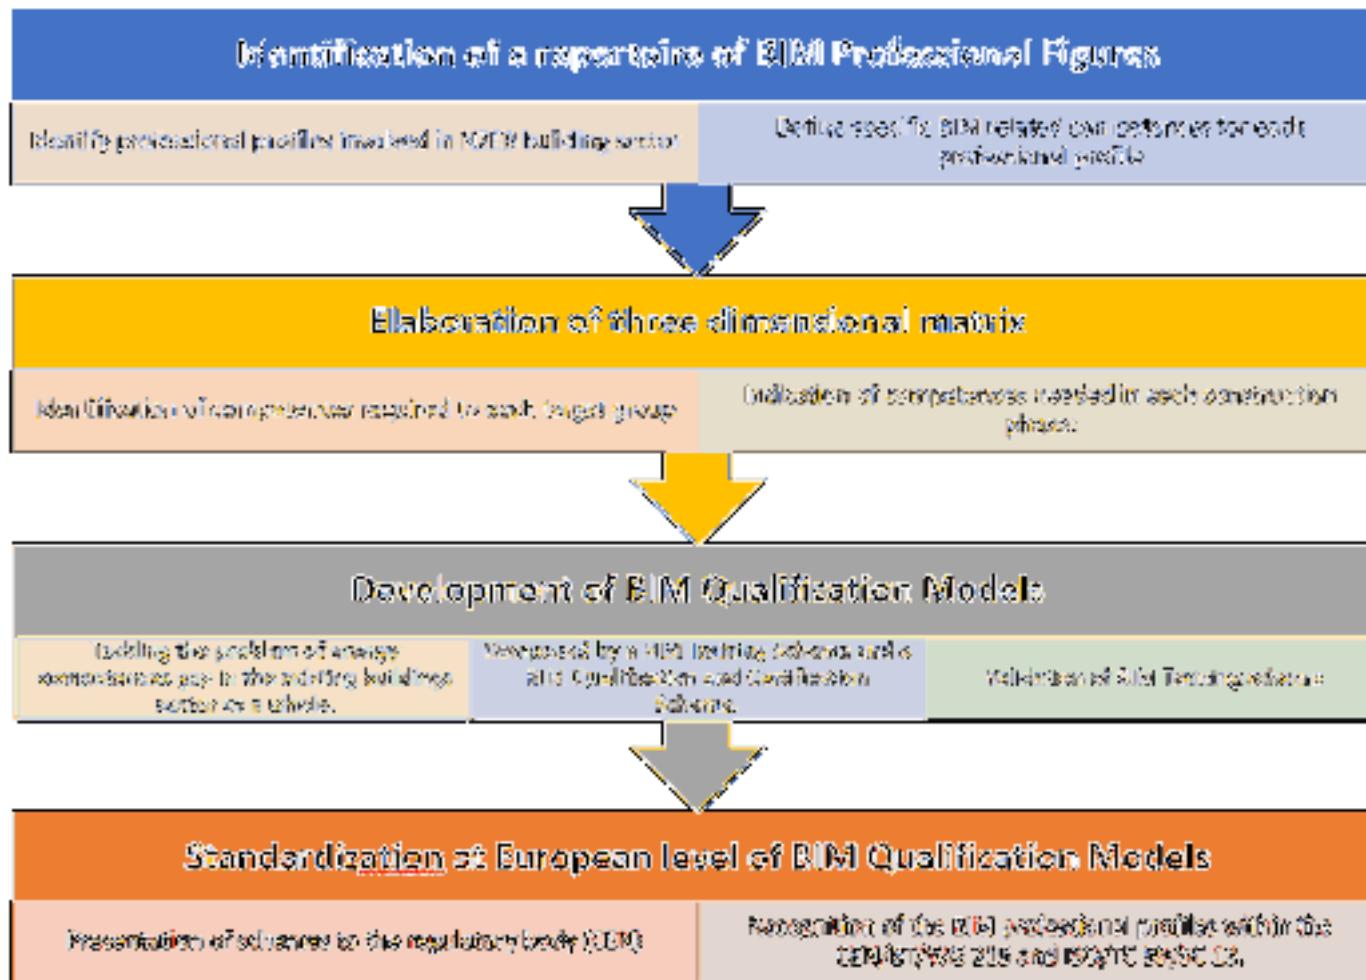

BIM Certification and Qualification Scheme intents to trigger a European process of definition of common BIM Professional Profiles.

The project will implement a BIM Training Scheme within a BIM Qualification Models to realize an up-skilling for 4 target groups within the building sector.

# Radni plan

# Provodenje

Seminari o strategijama provedbe BIM-a

Tečajevi o implementaciji energetske učinkovitosti korištenjem BIM-a

Online tečajevi o korištenju BIM-a kroz životni ciklus zgrada

Seminari o poboljšanju energetske učinkovitosti i upravljanju sustavima pomoću BIM-a

# Umrežavanje?

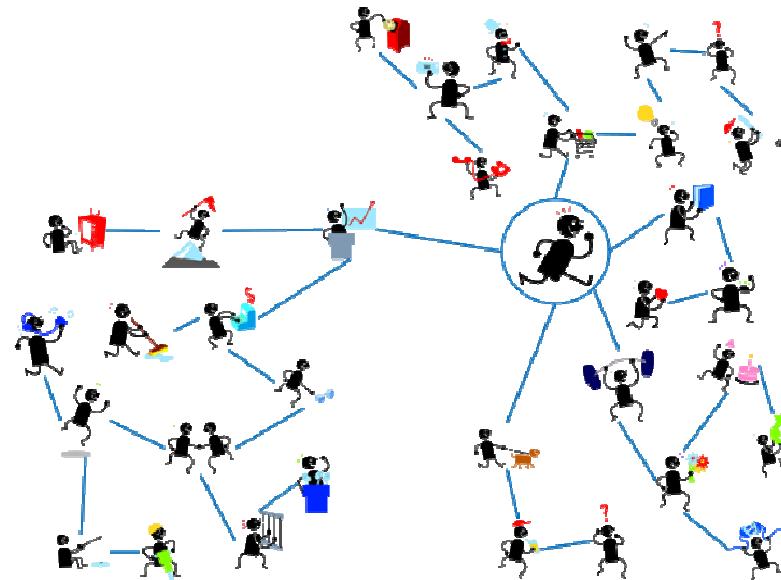

**Fit-to-NZEB**  
Innovative training schemes  
for retrofitting to nZEB-levels

N E T  
U B I E P

- Naslijedje BuildUP Skills Inicijative (2011-2017)
  - Unutar programa Intelligent Energy Europe
  - Slični projekti u **30 zemalja Europe** (EU28 + Norveška i Makedonija)
- EU exchange meetings
  - **Aktivno sudjelovanje na sesijama**
- Working groups
  - **Mutual recognition**

# Umrežavanje?

- Projekt SEEDPass – Erasmus+
- Concerted Action EPBD IV
- Dugogodišnje praćenje razvoja politika EU i domaće regulative
  - Prepoznavanje problema
  - Predviđanje potreba

# Praktični savjeti koji bi mogli biti korisni budućim prijaviteljima

- Napisati prijedlog koji se nastavlja na prijašnje projekte financirane od strane europskih poreznih obveznika
  - Citiram visokopozicioniranu osobu u DG Energy:
  - „*Why the hell did we spent so much money for projects and without any replication? Nothing is being done and nothing is left after the end of the project...*”
- Pratiti natječaje, ali i predviđati unaprijed što će se dogoditi
  - Pratiti politike
  - Razmišljati o problemima
  - **Prilagoditi sebe izvorima financiranja**

# Primjer

- ECO-SANDWICH
  - Energy Efficient, Recycled Concrete Sandwich Facade Panel
- CIP Eco-innovation
  - First Application and market replication projects Call 2011
  - Enables co-financing of green products and green business

# Poziv

- EE-01-2014    **Deadline Date:** 2014-03-20 17:00:00 (Brussels local time)
  - Topic: Manufacturing of prefabricated modules for renovation of building
- Expected impact:
  - Reduction in total buildings (primary) energy consumption by at least a factor of 2 with respect to the current situation, and a cost-level better than traditional renovation activities.
  - Significant reduction of renovation operations while ensuring low intrusiveness and impact for users.
  - Reduction in installation time by at least 30%, compared to a typical renovation process for the building type.
  - Better quality standard and performance guarantee for the installed prefabricated modules and their integrated components, while enhancing indoor air quality.
  - Demonstration of the replicability potential.
  - A maximum return on investment below 10 years for end-users.
  - Generation of new high-tech SMEs specialised in renovation with prefabricated modules.
  - High-skill jobs for workers that could master innovative construction tools.

# Praktični savjeti koji bi mogli biti korisni budućim prijaviteljima

- Jasno definirani ciljevi i način njihovog ostvarivanja
- Jasno definirani i **mjerljivi** učinci projekta
  - Postaviti jasnu metodologiju izračuna npr uštede u emisijama CO<sub>2</sub>...
- Bodovi se dobivaju za **excellence** i za **impact**
  - Stvoriti ugledni i jaki konzorcij
  - uvjeriti ocjenitelje da će stvarno biti impacta i to na način da se napiše kako će se taj impact postići...
- **Moja procjena**
  - *Ocenitelji potroše cca 4 h po projektu dok ga čitaju!!!!*
  - *Tako da ga treba napisati da se stigne shvatiti prijedlog projekta unutar 4 h.*
  - *Identificirati ključne riječi u pozivu i njih koristiti*

" We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard, because *that goal will serve to organize and measure the best of our energies and skills*, because that challenge is one that we are willing to accept, one we are unwilling to postpone, and one which we intend to win."

September 12, 1962;  
Rice University, Houston, Texas

# Hvala na pažnji!
